RUTTER HOBBS & DAVIDOFF COMPLETES TWO ACQUISITIONS FOR LEADING E-MAIL ARCHIVING VENDOR, SMARSH[®]

LOS ANGELES (April 28, 2008) – Los Angeles-based law firm Rutter Hobbs & Davidoff Incorporated announced its guiding role in the successful acquisition of both CentraScan LLC and Financial Visions, Inc. by Smarsh Inc., a leading managed-service provider of innovative, secure and reliable email-archiving solutions for message compliance and records retention, legal e-discovery and mail server data management. Andrew Apfelberg, a partner at Rutter Hobbs & Davidoff, was engaged by Smarsh to oversee both transactions.

“Smarsh has been the go-to provider for more than 5,000 financial firms – including investment advisors, broker/dealers, banks and hedge funds – since 2001. It has been a pleasure working with Smarsh over the years, and I’m looking forward to continuing our relationship,” said Apfelberg.

Recent feedback from Smarsh’s client base indicated that many were seeking a turnkey Web site solution that met regulatory compliance standards. By leveraging the company’s archiving and compliance technology, Smarsh intends to make a significant investment in the Web site product development. The acquisition of CentraScan and Financial Vision will ultimately reinforce and augment Smarsh’s position as a technology leader for the financial industry.

“For Smarsh, these acquisitions represent an important step in the company’s consistent and dynamic growth,” said Stephen Marsh, Smarsh founder and CEO. “Working with Rutter Hobbs & Davidoff has helped us to incorporate the services of CentraScan and Financial Vision into Smarsh’s full-service suite of financial technology solutions, which is consistent with our mission of adding value to our client relationships. The organized approach, patience and exceptional attention to detail of Andrew Apfelberg and his team were invaluable in facilitating our acquisition and integration of these two companies.”

CentraScan, a privately held Connecticut company, provides centralized e-mail management and customized, mission-critical hosting services to hedge funds and other financial institutions.
